

## EasiSolv GOLD Stain Remover

### ***Product Description:***

EasiSolv™ GOLD Stain Remover is an environmentally approved, biodegradable, 100% active, fast acting, low odor, one-part liquid designed to quickly and thoroughly dissolve all ink stains, emulsion residue/stains and ghost images from all types of screen printing mesh. EasiSolv GOLD will remove all stains created by solvent, water base, UV and textile inks with fewer hazards and less mesh destruction than harsh ghost and haze removers.

### ***Physical & Chemical Data:***

<b>Appearance &amp; Odor:</b>	Clear amber liquid with mild odor.
<b>Specific Gravity:</b>	1.1 @ 20 °C / 68 °F
<b>Vapor Pressure:</b>	< 0.1 mm Hg @ 20 °C / 68 °F
<b>Vapor Density:</b>	Heavier than air
<b>Boiling Point:</b>	100 °C / 212°F
<b>pH:</b>	12
<b>VOC:</b>	818 grams/liter
<b>Flash Point:</b>	> 200 °F / 93 °C

### ***Special features:***

- EasiSolv GOLD is a reduced hazard, biodegradable stain remover which will contribute to a safer work environment compared to many hazardous ghost and haze removers.
- EasiSolv GOLD dissolves stains fast (5 - 20 minutes), which provides a quicker alternative to stain removers that require hours of dry time to work effectively.
- EasiSolv GOLD is a low odor product, providing a more pleasant environment for employees.
- EasiSolv GOLD is a one-part liquid which works on all types of ink stains and eliminates the need for multiple products (including two-part systems).
- EasiSolv GOLD is a ready to use, stable product which will not separate. This reduces the time required to treat a screen and eliminates additional handling and stirring.
- EasiSolv GOLD removes stains and serves as a mesh degreaser while eliminating additional steps required to prepare screens.
- EasiSolv GOLD is an easy to apply liquid, which is quicker and requires less product than conventional paste products.

### ***Application for manual use:***

- Remove all ink and emulsion from screen.
- Apply EasiSolv GOLD to the (well) ink and print side of the screen.
- Allow the product to dwell on the mesh for 5 - 20 minutes, depending on the nature of the stain.
- Flood rinse entire screen with low pressure rinse. Follow with a high pressure rinse on entire screen.
- \*Prolonged contact time with EasiSolv GOLD may cause mesh breakdown.

The industry leader in the development of innovative, high performance, environmentally conscious products and systems for the screen printing and graphic arts industry.
